

ELITE TRANSLATION recognized as one of the TOP International Translation Companies in 2020 by Clutch!

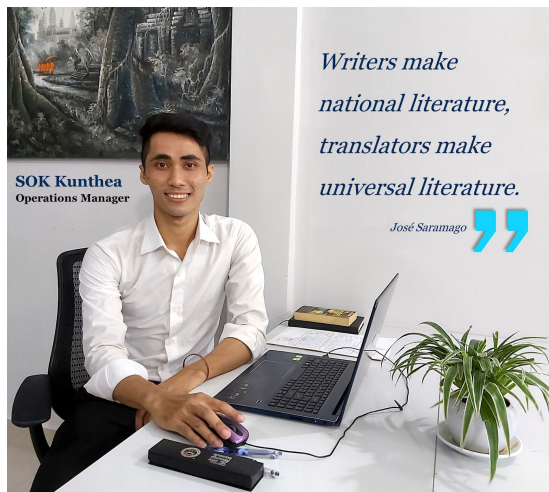

We are proud to announce that all of our hard work and effort have been recognized by Clutch, an International platform specialized in B2B services.

This is the result of our very fast growth, resistance and resilience to challenge the previous year, which was very difficult for many, with success.

That is how Clutch selected us as one of the **Top Translation Companies in the world for the year 2020!** This is such exhilarating news and our team members are over the moon with this recognition!

What does it mean to be a leading [language service](#) provider? For **ELITE TRANSLATION**, it means providing high-quality, trustworthy and cost-effective language services, with consistency in the market for seven years.

Our team of language experts has been delivering the best translation services for a vast number of national and international government institutions, private enterprises, non-profit foundations, non-governmental organizations, and individuals.

Focusing on accuracy and consistency, our translation service respects a 5-step process:

- > translating,
- > cross-checking (with our linguists & clients)
- > proofreading
- > formatting and editing
- > finalising

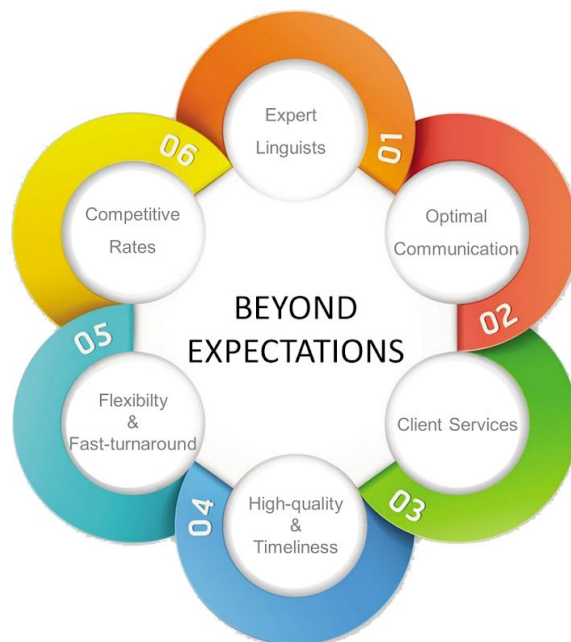

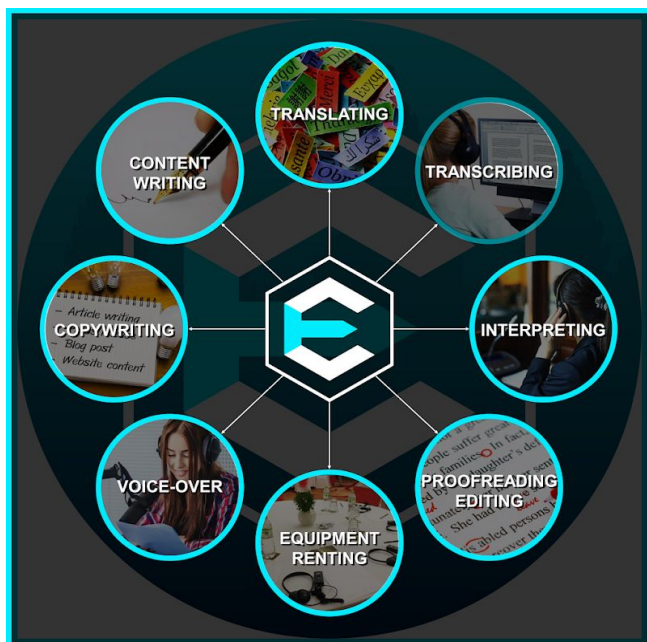

Also, we do not have any limit. We can handle any translation project of any topic and any size.

It is important to note that we prioritise human strengths, so we do not use any software, but the experiences and language skills of our native expert linguists.

Message of Appreciation from our CEO, KONG Pheaktra:

"We would like to thank Clutch for recognizing us as a leading international translation company. It is an honor to be named as one of the leaders in our industry. That encourages us to always provide our best!"

There is no secret. Our success is based on rigor, client consideration and flexibility. A large part of our clients comes from word of mouth. Getting loyal clients is the best proof of client satisfaction and we are glad that many of them are.

Clutch is a well-trusted rating and [verified reviews platform](#). This international platform continues to service the B2B industry by connecting companies and businesses to the best service providers in the world.
